

AMINA MOHAMED GAANI

Software Engineering | Cloud and Distributed Systems

Nairobi, Kenya | +254 729 898 239 | amishmohamedd@gmail.com | github.com/Gaani4mishaa | linkedin.com/in/amina-mohamed-47794b297/

EDUCATION

United States International University-Africa (USIU-Africa) | Bachelor of Science in Software Engineering

Expected 2027 | Nairobi, Kenya | Cumulative GPA: 3.113/4.00 | Major GPA: 3.27/4.00

Relevant Coursework: Cloud Computing and Virtualization; Computer Networks and Telecommunications; Principles of Operating Systems; Software Requirements Engineering; Software Verification, Validation and Testing; Software Construction and Development; Computer and Network Security; Programming with Networks; Machine Learning and Big Data.

RESEARCH INTERESTS

Software Engineering; Cloud Computing; Distributed Systems; Computer Networks; Scalable Software Systems

TECHNICAL SKILLS

Programming: Python, C++, JavaScript, SQL, HTML/CSS

Software Development: React, Node.js, Express, Django, REST APIs

Cloud and Systems: AWS EC2, Linux, Git, GitHub

Databases: SQLite, MySQL, Oracle

Tools: VS Code, PyCharm, Jupyter Notebook

SELECTED PROJECTS

Kakuma Refugee Kiosk | PHP, MySQL, JavaScript, AWS EC2, Ubuntu, Apache, Git

Developed a web application for accessing community services and resources, with multilingual support in Somali, Swahili, and English.

Deployed the application from a local XAMPP environment to an AWS EC2 Linux server and migrated its MySQL database and user data to the cloud.

Personal Portfolio Website | HTML, CSS, JavaScript, Git, GitHub, AWS EC2

Developed a responsive portfolio website showcasing software engineering projects, technical skills, cloud engineering work, experience, and certifications.

Deployed the portfolio website to an AWS EC2 Linux server.

EXPERIENCE

Nairobi South Hospital | ICT Intern | 2025

Provided technical support involving computer configuration, formatting, and printer troubleshooting.

Supported users with the hospital information system and assisted with network and server-related tasks.

Performed RJ45 cable preparation and basic network infrastructure tasks.

Yelosa Foundation | Web Development Volunteer

Supported the development of the Foundation's website and researched online donation and payment solutions for integrating donations into the Foundation's digital platform.

HONORS AND SCHOLARSHIPS

Dean's List, USIU-Africa | 2025

Mastercard Foundation Scholar, USIU-Africa
